

MOHAMED FREDJ

Elghoul

UX-UI Designer
& Front end developer

PROFILE

Hello, I' am a front end developer, passionate about web development. My training and my professional experience, allowed me to acquire and develop all the techniques and methods of design and development of the website

I was involved in the development of several web projects, in which I was in charge of the technical part, and I in particular the writing of the lines of codes necessary for the creation of the product

I have the means to turn your ideas into real successes
